\$1000 Rebate on Xerox Phaser® 7700

True-to-life, tabloid-size color has never been more affordable. The Xerox Phaser® is nearly 4 times faster than the closest rivals and versatile enough to meet the toughest demands. The 7700 will print 22 pages a minute at 1200dpi resolution. It features auto calibration and custom color management software for print-to-print consistency. Outstanding media flexibility allows for 11x17 full bleed and standard auto-duplexing, while an optional finisher-stacker satisfies nearly any printing requirements. Purchase before May 1st, 2003 and receive a \$1000 rebate!

Apple Releases Safari Beta 2

Apple has released a new version of its much touted browser, Safari. Safari Public Beta 2, now available for download at the Apple site, adds new enhancements such as Tabs, Forms AutoFill and Privacy Reset.

The new tabbed interface allows you to switch between multiple web pages in a single window or open a folder of bookmarks with a single click. Forms AutoFill completes Web forms based on information from your Address Book or previous forms. Safari also gives you a separate option to automatically enter your accounts and passwords, stored securely in the Mac OS X Keychain. Safari's Bookmarks Library, using a single-window interface like iTunes, lets you edit bookmark names and addresses in place as though you were renaming an icon on your desktop.

If you are concerned about the security of your passwords, other sensitive data or what sites you have visited Privacy Reset erases your surfing history, empties the cache, clears Downloads and Google search entries and also removes cookies, saved names, passwords or other AutoFill text.

Mac OS X 10.2.5 Released

Apple has released Mac OS X 10.2.5 update via Software Update and as a \$19.95 CD Upgrade. The 10.2.5 update delivers enhanced functionality and improved reliability for the following applications, services, and technologies: AirPort, Bluetooth, Classic

compatibility, FireWire, Graphics, Image Capture, Mail, and OpenGL. It also includes improvements to AFP, web services, dial-up connections over PPP, and Windows file services, as well as audio, disc recording, graphics, and printing improvements. The new version also provides updated security services and includes all of the latest security updates.

The easiest way to do the upgrade is via the Software Update system preference, but in addition to the retail CD there is also a free downloadable updater available at the Apple website.

Tech Tip: Fixing Corrupt Quark Documents

Have you ever had one of those days when nothing seems to go right? How about a Quark document that just won't work. Maybe screen redraws are incorrect or the document just isn't acting right. You may have a corrupt document. One method for rescuing your document is to perform a thumbnail copy.

1. Change your document view mode to thumbnails (Shift + F6 or View...Thumbnails).
2. Create a new document with the exact dimensions as the one you are trying to rescue (i.e. 8.5" x 11").
3. Set the new document's view mode to thumbnail (Shift + F6 or View...Thumbnails) as well.
4. Go to your original Quark file and shift-select all the pages.
5. Drag and drop your selection onto the new document.

This should recreate your file and potentially fix what ails it. Good luck!

MacMedics' Introduction to OSX Course

OSX is a paradigm shift for Mac users. It combines the power of UNIX with the Macintosh GUI to create a sophisticated yet elegant interface. And yes, it will take some getting used to. MacMedics is proud to offer an introduction to OSX for the discerning user who wants to know more. We will help you reconfigure your notions of how a computer operating system should work and show you how to take advantage of its new tools.

Course Outline

- OS 9 vs OSX
- System Preferences
- Networking
- Printer Setup and Management
- The Dock
- Customizing the Finder
- Applications
- Fonts
- Classic Mode

The course includes numerous handouts and hands-on training. We offer the class at MacMedics or on-site.

Other course offerings are:

PDFs for Profit

How to protect your work and create accurate PDFs.

Preflighting, an Insider's Guide

How to maximize profits by preflighting your files prior to release.

Please email our Director of Training, Ken Visser for scheduling, pricing and suggestions at kvisser@macmedics.com

Used Macs for Sale

Please call for specific pricing on all used Macs. We can custom configure them as your needs require, such as additional memory and/or hard drives.

- 1 PowerMac 9500/133Mhz.
- 1 PowerMac 7500/120Mhz.
- 3 Beige PowerMac G3 Towers. 300Mhz.
- 2 Blue and White PowerMac G3 Towers. 300Mhz.
- 1 PCI Graphics PowerMac G4. 350Mhz.
- 1 G3 Powerbook, aka Wallstreet. 233Mhz.
- 2 White 'ice' iBooks. 500Mhz.
